Lechat told Fulmire that he no longer thought it advisable to attempt setting up a Terran community alongside the totally unfamiliar experience of Franklin--at least, not immediately, The Terrans would need time to readjust, and in the meantime they would cling to their Own familiar ways and customs. The proximity of Franklin would only cause tensions. Lechat believed, therefore, that the migration to the surface should be halted completely, the existing plans abandoned, and a new Terran settlement established elsewhere for the transition period. An area called Iberia, on the south coast of western Selene, would be a suitable place, he thought. Lechat didn't know what would happen after that and doubted very much if anything could be predicted with confidence, but for the nearer term it would be the answer both to giving the general population a chance to settle in without disruptive influences, and the extremists an opportunity to cool down and do some more thinking..horse as they cross burning desert sands. "I think so. I can find it anyway.. "But you can't!" Merrick sputtered.. "Yeah," said Leilani, "and I was out waltzing all night." She stamped her left foot

again, rattling her leg. PERCHED HAPPILY ON HIS STOOL at the lunch counter, poor dumb Burt Hooper knows that he. That same night, on one side of the floodlit landing area in the military barracks at Canaveral, Colman was standing with a detachment from D Company, silently watching the approach of a Chironian transporter that had taken off less than twenty minutes before from the far side of the Medichironian. Sirocco stood next to him, and General Portney, Colonel Wesserman and several aides were assembled in a group a few yards ahead. "He's just playing on emotion, Jean. I had it on down here for a few minutes but couldn't stand it. All he's interested in is scoring a few points against Wellesley and stopping a run to Lechat. And all that stuff about the Chironians claiming everything is theirs-it's pure garbage! I mean, it couldn't be further from the truth, could it, but nobody stops to think." He frowned to himself for a moment. It was true that he hadn't been at The Two Moons, but he had called Colman early that morning and gotten what seemed like an honest account. But with Jean acting the way she was, he didn't want to mention that. "Anyhow, the facts about the shooting are on record," he said. "All you have to do is ask Jeeves." "First of all, there's nobody who'd notice or think to ask. We're always on the move, rambling around. Roughly 35 percent of Chiron's surface was land, the bulk of it distributed among three major continental masses. The largest of these was Terranova, a vast, east-west sprawling conglomeration of every conceivable type of geographic region, dominating the southern hemisphere and extending from beyond the pole to cross the equator at its most northerly extremity. Selene, with its jagged coastlines and numerous islands, was connected to the western part of Terranova via an isthmus that narrowed to a neck below the equator; Artemis lay farther to the east, separated by oceans. he stood, came around the table, and moved her chair back for her to rise. She experienced again the fleeting sensation that she was a puppet dancing to Stern's choreography. She watched herself as he ushered her to an armchair and handed her a glass. Then Stern settled himself comfortably at one end of the couch, picked up his own drink, and held it close to his face to savor the bouquet. incoherently, believed herself to be a more delicate and exquisite flower than any hothouse orchid. had savored each of three additional tidbits that his young master was conned into sharing, instead of. The chopper might not be aloft yet, just getting up to power while the troops reboard. "And exactly what is that supposed to mean?" Stern demanded. At the end of the hall, her room was small but not cramped, and nothing about it cried hospital or the salty tears that offended her more than oozing serpent guts. often expected to find a secret door to fantastic other lands, but she had been routinely disappointed, so forever. Girl, I'd give everything I have if that could happen for you. "Curtis is disturbed but not surprised by this development. He already knows that one or both of these. "But . . . you can't hope to run a whole planet like that," Bernard protested after a few seconds' astonishment. "I mean, I know that right now your productivity must be enormous compared to your population, but the population is growing fast. You've got to start thinking about some kind of . . . system to regulate things. Your resources are only finite." "They've still got the Army... and a lot of nasty hardware up here," Lechat reminded him. Sadness found a surprisingly easy purchase in Geneva's smooth, fair, freckled face.
