wife's infidelity than with her taste; that it wouldn't have been so bad if she'd been shacking up. The assumption here is that matters not subject to cut-and-dried "hard" proof don't bear any relation to evidence, experience, or reason at all and are, therefore, completely arbitrary. There is considerable indirect evidence one can bring against this view. For one thing, the people who advance it don't stick to it in their own lives; they make decisions based on indirect evidence all the time and strongly resist any imputation that such decisions are arbitrary. For another, if it were possible to do criticism according to hard-and-fast, totally objective rules, the editor could hire anyone to do it and pay a lot less than he has to do now for people with special ability and training (low though that pay necessarily is). It's true that the apparatus by which critics judge books is subjective in the sense of being inside the critic and not outside, unique, and based on the intangibles of training, talent, and experience. But that doesn't per se make it arbitrary. What can make it seem arbitrary is that the whole preliminary process of judgment, if you trace it through all its stages, is coextensive with the critic's entire education. So critics tend to suppress it in reviews (with time and training most of it becomes automatic, anyway). Besides, much critical thinking consists in gestalt thinking, or the recognition of patterns, which does occur instantaneously in the critic's head, although without memory, experience, and the constant checking of novel objects against templates-in-the-head (which are constantly being revised in the light of new experience), it could not occur at all.* Hence angry readers can make the objection above, or add: Picket duty wasn't as bad as I thought it would be. There's been some talk about the Company hiring scabs, but I guess that's all h is ?talk. Anyway, nobody tried to get in. Not that they'd have succeeded if they had. The setup is ideal for picketing. You'd almost. They sailed all that night and all the next day, and toward evening they pulled in to a rocky shore where just a few hundred yards away a mountain rose high and higher into the clear twilight..Gordy., Nolan had shrugged, too, and dismissed her from his mind. Had the grey man not been wearing his sunglasses against the sunset, he might have noticed. he was pushing her.. "Of course not". "Hold it," Crawford said. "I just wanted to know if you had any ideas."
